Council Puts Cemetery Caretaker Under Supervision Of Town Foreman; Roads and Creek Beds to be Repaired

Permission To Operate Coffee Shop Granted To Joe Lombardi; Water Analysis Declared Water In Pure Condition.

A meeting of the town council was held in the council chambers on Tuesday, August 10 with Mayor Abousaff and Councillors Lowe, Ramsay, Dutil, Woods, Wilson and Jenkins present.

Pete Rizzo was present to complain about two trees in the creek near his property. He claimed that they were a menace to his property when the creek was in flood. He also stated that the culvert near the Cyr residence was in need of repairs. The council agreed to look into the matter.

Works and Property Department were directed to concentrate on road repairs to save what we have, and that the creeks be repaired in event that there is another flood in the spring.

Minutes of the previous meeting were adopted as read.

A motion was made that \$11,000 of the account owed to the Coleman School District be paid leaving a balance of \$11,000.

The secretary was authorized to send a letter to the Water Department of Alberta to inquire what they would do about the dredging of McGillivray and Nez Perce creeks.

It was declared by councillor Woods that the creek bank by the DeCocco residence was still in need of repair and that the water was still leaking somewhere in the vicinity. The Works and Property Department agreed to look into the matter.

Letter from sign company was received stating the prices of traffic signs on hand. Council agreed to purchase two right-turn signs to be used to direct tourist and other traffic to and from British Columbia.

Correspondence from the

Wartime Prices and Trade Board in regard to the renting of houses was received. The council was advised that they should write to the Central Mortgage and Housing Corporation for further information.

Water analysis received from Edmonton declared water pure. Request was received from Albert Sapeta to place a neon sign on the front of his building. Permission was granted.

Joe Lombardi requested permission to operate a coffee shop in his main street premises. Permission was granted to Mr. Lombardi with attached conditions.

Bids on the town's property on second street were received. Tender received from Marcel Breton, town ashman, was selected. House was sold for \$450.

Condition of the cemetery was brought up by Councillor Woods. It was agreed that the caretaker be under the supervision of town foreman, Joe Malan-chuk.

Cash statements from Collins and Collins, and for a three months period, and the regular monthly cash statement were adopted as read by the council.

Letter was received from Department of Trade and Industry regarding the granting of permission to Matt Kropnik to operate a general store in his premises. This permission was granted.

Coleman Light and Water Department was authorized to write a letter to the Coleman Board of Trade suggesting that they undertake the lighting of main street shops. In the latter it was stated that the Light and Water Company was prepared to give a reduced rate to the shop keepers participating in this plan.

LETTER RECEIVED FROM QUEEN TICKET WINNER

The following letter was received on Friday morning by Jim Drew, chairman of the Rodeo Queen Committee, from Mr. George Kutay, of Nacmne, Alberta, who was the lucky winner of the Queen Ticket Draw. Nacmne, Alta. Aug. 9, 1948.

Mr. J. Drew, Chairman of Rodeo Queens Committee, Coleman, Alta. Dear Sir,

I received your most welcome letter today informing me that I was the winner of your Rodeo Queen's prize. It was sure a nice surprise for me.

With this letter I am sending the tickets I bought. As you have not sent me the number of the lucky ticket I am sending you all of them. It is pretty far for me to come and get the pony so please send me the \$50 cash.

Thanking you and your committee very much. I remain Yours very truly, Geo. Kutay.

Mr. Drew informed The Journal that the money would be sent to Mr. Kutay immediately.

LOCAL ELKS TO HOLD THREE DAY CARNIVAL THIS YEAR

Elks' Carnival Committee are boasting the biggest and best carnival ever this year is in store for local citizens. It is scheduled to be held in the Crystal arena on September 3, 4 and 5.

Two major prizes will be drawn for on Saturday and Monday nights with a \$10 door prize on Friday night. The major prizes consist of a Sunbeam Mix-Master, 65-piece Dinner Set and a first class 5-piece Chrome Kitchen Set. Tickets for these grand prizes are now on sale.

Children will have the opportunity of enjoying thrills on two rides brought in by the committee especially for their enjoyment.

A Jitney dance will be held on Saturday and Monday nights with the Royal Canadians Orchestra in attendance. Refreshment booths will be on hand right in the arena.

...V... Mrs. Roy Beddington and small son, of Lethbridge were the guests of Mr. and Mrs. H. Hulbert last week.

Crystal Arena To Get New Roof Before Snow Flies; Volunteer Labor Called For; Corrugated Aluminum To Be Used

Project To Be Done By Combined Efforts of Sports Association and Civic Centre Committee; O. Celli Awarded Contract.

A joint meeting of the Coleman Sports Association and the Coleman Civic Centre Committee was held on August 9, to discuss the ways and means of financing a new roof for the Crystal Arena. It was agreed that by a combined effort of the two organizations a roof could be financed and put on before winter sets in. The Civic Centre Committee granted the sum of \$1,500 towards the project with the understanding that the Sports Association would pay the rest.

Sports Association held a meeting on August 13, and it was decided that corrugated

aluminum should be used for the job with the cost running between \$3,500 and \$4,000. Mr. O. Celli, local contractor, was awarded the contract.

The work will have to be done on a volunteer basis in order that the job can be financed. A miniature army of volunteer workers is already being organized to do the job. The committees asked that as many men as possible turn out when this work gets under way.

The materials were ordered from Calgary by phone and it is expected that they will arrive by this weekend. Work will start immediately.

Coleman Dominoes Drop Series To Shaughnessy

The second game of the Southern Alberta Senior men's fastball finals was played at the Henderson Stadium in Lethbridge last Sunday. Shaughnessy Cadillacs handed the Dominoes their second straight defeat, winning 4-2.

Bill Ingram of Cadillacs was the big gun for the winners getting a homer and a double with two on base to count for three of the Cadillac runs. Black scored the fourth run on an error.

Kuz for Dominoes doubled and scored on Skura's single. Hlueka tripled then scored on Blinda's single to account for Coleman's second run. "Big Bill" Skura, whiffed eight Cadillacs and allowed only three hits. Poychuk for winners, allowed seven hits.

The Cadillacs advance now to meet Calgary in the Alberta semi-finals.

In the exhibition tilt, played under lights, the Dominoes were again defeated, by a score of 13-2. Big Bill, Coleman Pitcher, struck out six and walked six, while McKann the moundman for the Shaughnessy club struck out three and walked one.

Coleman runs were made by Ganario and Skura.

John Omelusik Meets Death At McGillivray Tipple

A tragic and untimely death struck John Omelusik, age 23 years, at approximately 11 a.m. Monday, August 16 while he was attending a conveyor belt at the drier. The body was discovered by Nick Melusik, a fellow worker, at the McGillivray Creek Coal & Coke Company tipple.

Deceased was born in Hillcrest May 3, 1925, attending school in both Hillcrest and Coleman. He was married on July 27, 1946 to Miss Annie Kalivoda, a Coleman girl, and a baby daughter was born to them in June, 1947.

Surviving are his wife Annie, 3 sisters, Mrs. Edna Molak, Mrs. Catherine Wavrean, and Rose Omelusik; 2 brothers, George and Fred.

Funeral services will be held from the family residence on Saturday, August 21 at 10 a.m. High Mass in the Holy Ghost church at 10:15 a.m.

Inquest was held in the Coleman Council Chambers on Wednesday, August 18. After hearing all the evidence the jury brought in a verdict of "Accidental Death, with no blame attached to anyone." death was caused due to suffocation.

Official Count Not Finished; Social Credit Landslides To Victory; Liberal Party Second Choice

WM. KOVACH

William Kovach, of Hillcrest, Alberta, the Social Credit candidate for Pincher Creek - Crows' Nest constituency, was assured a Legislative seat after the first count in the provincial election. He led his nearest rival by a landslide majority of 1,240 votes. The first and unofficial count was as follows: W. Kovach, SC; J. Lloyd, CCF; J. W. Rutherford, Lib., and B. R. Swankey, LPP:

Forest Conservation Films Shown In Coleman High School

In an effort to secure greater public co-operation in the prevention of forest fires, the Canadian Forestry Association's annual forestry tour of the Eastern Slope has been in progress for the last two weeks. Last Monday, August 16, the movie program was held in the High School auditorium, in Coleman, and in Blairmore on Tuesday night in the Miners' Union hall. The tour then moved to Bellevue and Hillcrest, finishing at the latter point tonight, August 19. Meetings will be held tomorrow and Saturday, August 20 and 21, in the Waterton National Parks.

This tour is working in co-operation with the Alberta Forest Service, John Coats and Barry Beaven, in charge of the tour, are travelling by truck equipped with power plant and sound motion picture equipment. The program of films tells the story of our natural resources, and the valuable part they play in our lives. The need for greater public care in preventing forest fires is stressed by both films and short lectures. This educational tour is designed to eliminate the man-made forest fire and to keep our forests green. Emphasis is placed on the importance of water-sheds in controlling stream flow and soil erosion, and upon the great tourist attraction our forests provide. It is imperative that the wooded slopes be protected from destruction by the forest's worst enemy—fire.

In addition to this tour, in the charge of Mr. Coats, the Canadian Forestry Association has a tree planting railway car, with Mr. Murray Pratt in

The Churches

ST. ALBAN'S CHURCH Coleman, Alta.

13th Sunday after Trinity 9 a.m. Holy Communion.

7 p.m. Evensong and sermon. Rev. A. S. Dewdney, M.A., B.D.

A short meeting of all Anglican women will be held in the Parish Hall on Friday, August 27, at 7:30 p.m. The Vicar has certain proposals to make on which he needs the advice and help of the ladies. This is a most important matter, and we ask for a full attendance of all who are interested in the welfare of St. Alban's Parish.

Sunday school will reopen on Sunday, September 5 with a special Rally service for children and parents at 2:30 p.m. Watch for special announcement next week.

THE SALVATION ARMY Sunday, August 22

Holiness meeting 11 a.m. Sunday school 12:15.

Salvation meeting 7:30 p.m.

A mid-week meeting will be held each Thursday at 8 p.m.

Board of Trade Executive Meeting Held Thursday

An executive meeting of the Coleman Board of Trade was held in the Grand Union Hotel on Thursday, August 12.

Letter was received from the Queen Charlotte Airlines office in Vancouver stating that the Airline was interested in the possibilities of a seaplane refuelling depot on the Crows Nest Lakes but that due to the fact that there was no regular schedule of flights over this district they weren't prepared to spend money on a wharf or any facilities. The company suggested that if the Board of Trade could arrange to have one of the local garages stock a few barrels of aviation gasoline and have a small pier built they would be glad to make the Crows Nest Lake their regular stop-over when making a flight over this particular district. The executive agreed to have the matter of gasoline and a wharf looked into.

Discussion on the "On-to-Nelson" Caravan took place. The Caravan is scheduled to leave Brandon on September 6 and will arrive in Coleman on September 8. The executive has planned to have the chuckwagon, which is familiar in Rodeo parades, on hand to lead the Caravan into town. The members will be served tea by the Board of Trade. It was suggested and agreed that a large "Welcome to Coleman" sign be made to string across main

SEATS HOLD UP THEATRE OPENING

The Coleman theatre is ready to be opened except for the lack of seats which were ordered in February. A telegram was received on Saturday which stated that the seats would be here in 10 to 15 days.

The projection machines were installed last week by Calgary experts and need only to be adjusted.

The seating capacity of this new theatre will exceed 400. The equipment in this theatre is all of ultra-modern nature assuring Coleman patrons the utmost in theatre enjoyment and relaxation.

street. This sign will be made of a permanent nature and will be used on future occasions.

A request was received from the Alberta Board of Trade and Agriculture urging the local board to publicize to the people the importance of their using their franchise. It was agreed that a hand bill be distributed to this effect.

A letter was received from the Coleman Light & Water Company, offering a cheap rate for electricity to all merchants that agreed to have display lights in their shop windows. A committee was picked to look into the cost of such a scheme.

A vote of thanks was taken by the members for Mille Bubnik, the Board of Trade Queen Candidate. There was also a vote of thanks extended to Rodeo Committee president L. S. Richards and the members of the Rodeo Committee.

The next general meeting will be held after the Nelson Caravan.

A Valuable Service

THE WORK OF THE Canadian National Institute for the Blind is known to many and there is widespread interest in, and admiration for the splendid results which have been achieved by this organization in the thirty years of its activity here. The institute has done a great deal, during that time, to prove that blind people can be successfully rehabilitated and their economic problems adjusted. With the continued interest and co-operation of the public there is now little doubt but that in most cases, blind people can find useful occupations in the community and enjoy economic independence and security.

Need Stressed For Prevention

The number of registered blind people in Canada now is 15,614, while prevention cases, that is ones in which the likelihood of blindness is indicated, number 38,618. Of these, 2,909 were given treatment or assistance during the past year. While these figures have been made available, they do not represent all the cases which came to the attention of the Institute, since new ones are constantly occurring and being brought for treatment. In the field of prevention, emphasis is laid on the importance of maintaining and increasing this service, since the value of assisting preventable cases of blindness cannot be overestimated.

Great Need For New Libraries

One of the many services rendered by the Canadian National Institute for the Blind is the free library service, which makes available books in Braille, Moon, and "talking books". These can be secured in Winnipeg, Vancouver and Toronto, but the great demand for the books in these libraries, and particularly for the "talking books" makes it evident that it would be desirable to have a great many more centres for this service. Another project which the Institute is now anxious to advance, is to increase the number of its residences, recreation and service centres for the blind. It is clear that this organization has, in the past thirty years, done an enormous service to the blind people in this country in lessening their suffering and in helping them to find interesting and useful occupations. It is to be hoped that it will continue to receive the public support which it so richly deserves in its important and humanitarian service.

Gold Output Remains Higher Than Last Year

OTTAWA.—Gold production for May dropped from the figure set in April but still was higher than a year ago, the Bureau of Statistics reports.

Output totalled 285,566 fine ounces compared with 286,065 in April and 268,910 in May, 1947. During the first five months of 1948, production rose to 1,394,308 fine ounces against 1,241,822 for the like period of 1947. May output by western provinces, with May, 1947, figures in brackets: British Columbia, 25,114 (19,773); Manitoba and Saskatchewan, 15,010 (14,885); Northwest Territories, 5,458 (5,039); Yukon, 13 (30).

SELECTED

RECIPES

MEAT LOAF
Shape hamburger mixture (with bread crumbs) into a loaf; lay slices of bacon around top. Place in baking pan and bake at (400 deg. F.) for 45 minutes. If the oven is being used for something that requires a low temperature, the meat loaf can be baked for 2 hours at (350 deg. F.). Serve with gravy made from fat in pan by adding flour. Allow to brown, add boiling water.

APPLE SNOW

¾ cup cooked apple
3 egg whites
Powdered sugar
Pare, quarter and core 4 sour apples. Steam until soft and rub through sieve. There should be ¾ cup cooked apple. Beat the whites of eggs until stiff; add gradually apples sweetened to taste. Pipe lightly on a dish and serve with custard sauce. One tablespoon lemon juice may be added.

BAKED POTATOES BETAIN VITAMINS

Medical men know that many health-giving foods we eat regularly do us less good than they might because they are improperly prepared for the table.

In Canada a traditional method of preparing potatoes, for instance, is to boil and mash them. This process destroys about half the vitamin C in them. Baked in their jackets they retain almost all of this element so vital in keeping the body's tissues healthy.

In medieval warfare, armies by agreement never engaged in active campaigning during winter.

FUNNY And OTHERWISE

Mother: "What are you doing in the pantry, Tommy?"
Tommy: "Fighting temptation, mother."

The grateful father was thanking the young man for his bravery in rescuing his daughter from the river. He finished up: "Do you realize, my boy, the great danger you were placing yourself in?"

To this the rescuer replied briefly: "There wasn't any. I am a champion swimmer and I am already married."

"Do you have much variety at your boarding house?"
"Well, we have three different names for the meals."

Teacher: "If a number of cattle are called a herd, and a number of sheep are called a flock, what would a number of camels be called?"

Johnny: "A carload."

"What is dignity, Dad?"
Dignity, my son is what you think you have until the boss says 'What's the meaning of this?'"

"Boy, if I don't get rid of this cold soon, I'll be a dead one," moaned the jockey to the exercise boy.

"Dad, do what the doctor said," asked the boy.

"Naw," replied the jockey. "The sign on his door said '10 to 1' and I wouldn't monkey with a long shot like that."

"Who's the responsible man here?" asked the caller.

"If you mean the fellow that always gets the blame," answered the office boy, "you're speaking to him now."

"My dear," said the fond mother earnestly, "I can't think why you can't get on with your husband. He's all right in his way."

"Yes, I know, mother," said her daughter. "But he's always in mine."

The travellers in the railway carriage were discussing railway matters. "I consider," said one, "that the single fare for the double journey is a very good investment."

"It certainly is," added another, "because you get a return for your money."

FIGURED OUT SURE WAY OF GETTING A SEAT.

The nervous little man glanced nervously at his watch, grabbed his bag, and rushed out to the station platform. The effect on the other travelers was all that could be desired. They also picked up their luggage and ran. Shortly afterwards, the little man returned, picked out the best seat in the station and sat down to wait for the train—which was not due for 30 minutes.

FREAK EGG YOLK MISSING

ZEBALLOS, B.C.—Here's the latest in freak eggs—one without a yolk.

It came from Vancouver and its oddity was discovered by Ralph Forrester, government scaler for the Manning Logging Co., at the breakfast table.

Cinnamon is used in flavoring in some medicines.

THE SWEEPSTAKES COMPETITION for boys' and girls' dairy calf clubs was a big event in the Saskatchewan Exhibition. The top calf of the class is shown in the upper of the above two photographs and was owned by and is shown here with Don Gamble, of Moose Jaw. The whole line-up is shown in the lower picture. Don's calf can be identified as the second from the rear end. Standing with a cane in the foreground is Claude Gooding, president of the exhibition.

Need Of Western Eggs To Check Rising Prices

TORONTO.—Only possibility of a break in the present high egg prices at present seen by Dominion Department of Agriculture officials is an influx of western eggs.

A spokesman for the department agreed with Ontario Department of Agriculture officials that the price of eggs may go even higher and eventually reach \$1.00 a dozen.

As he explained it production of chicks is down 26 per cent. in Ontario this year and the pullets that are being bred were produced late in the season. The reason he said, is the farmers simply shied off the market this season. A combination of factors, including the low egg price, high cost of feed and shortage of labor as well as of those trends which no one can ever quite explain was responsible.

The result of the decreased production means fewer eggs, and in addition, the late buying means a severe shortage.

Production on the prairies is down though not to the extent of Ontario.

J. R. SMALLWOOD MAY BECOME MFLD. PREMIER

ST. JOHN'S.—Joseph Robert Smallwood, 48, the apostle of confederation, will in all likelihood be Newfoundland's first provincial premier.

Smallwood is probably, at one and the same time, the most loved and most hated man in Canada's future 10th province. But all agree with this phrase, coming from one of his opponents: "Joe Smallwood is not a man in 300,000 but one in 3,000,000."

A speaker among speakers, a fighter hard to beat once the gong sounds, Smallwood almost single-handedly swung this country to confederation. In the last three days before the July 22 referendum, for instance, he attended 52 meetings.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Forgotten "28" For The Kind Of Relief That Helps Make You Rarin' To Go

More than half of your digestion is done below the belt—in your 28 feet of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.

What you may need is Carter's Little Liver Pills to give needed help to that "forgotten 28 feet" of bowels.

Take one Carter's Little Liver Pill before and one after meals. Take them according to directions. They help wake up a lagging liver, help rid your system of poisons in your stomach AND bowels—help you digest what you have eaten in Nature's own way.

Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—50c.

HAIL DAMAGE IN MANITOBA, SASK. HEAVIER THIS YEAR

REGINA.—Over 1,600 claims for hail damage have been received this year by the Saskatchewan Municipal Hail Association, about twice the number of claims submitted during the same period last year, according to J. S. Gibby, assistant manager.

Hail losses have been heaviest in the Gowan, Imperial, Davidson, Loreburn and Dinsmore districts. Estimated loss ranges from 10 to 100 per cent. Strasbourg and Stalwart districts also report extensive losses.

A. S. Simpson, secretary of the Canadian Hail Underwriters Association, said here that hail damage in Saskatchewan was slightly above normal. It is heavier in Manitoba than last year and much less in Alberta.

Damage in Manitoba is reported heaviest around Morden, Thornhill, Darrington, Manitou, La Riviere and Pilot Mound. Less damage has occurred near Brandon, Minnedosa, Neepawa, Russell and Roston.

In Alberta, Red Deer reports extensive damage. Some losses have occurred near Calgary, Munson, Lethbridge, Coalville and near Edmonton.

CALGARY.—Officials of the Alberta Hail Insurance Board stated that the board has to date written only two-thirds as much hail insurance as was written at the same date last year.

Last season the board carried a risk of \$18 millions and had a premium income of \$1.7 millions. Due to heavy hail storms last year the board had to use \$250,000 in reserve to finance protection.

At July 15 this year 362 claims for hail insurance had been made compared with over 1,500 claims last year.

JUST ANOTHER MYTH

The common belief that the century plant blooms once in 100 years is a myth. In warm regions it grows rapidly and blooms about the seventh or eighth year. In hot houses or in colder climates 80 or 90 years may elapse before the plant blooms.

Fined \$2,500 For Selling Bad Eggs

SEATTLE.—Three men were fined \$2,500 each in Federal Court here for selling bad eggs to the U.S. government during the war.

Laville Donahue and Kenneth A. Moody of Tacoma and William R. Monsech of San Francisco were said to have carried out orders of three officers of a California firm who recently were sent to jail and fined \$35,000.

Thousands of eggs were involved, fraudulent invoices were made out and the government shortchanged. Judge Lloyd L. Black was told.

Manitoba Starts New High School Course

Changes in the curriculum for Manitoba high schools — the most radical to be made by any province in Canada, according to officials of the department of education—will be introduced to Grade 10 students. Similar changes will be put into effect for Grades 11 and 12 at the beginning of the next term, September, 1949.

The new study program permits students to choose one out of five different courses, instead of the one general course formerly offered. The five alternative courses are: general (which leads to University), commercial, home economics, agriculture and industrial. All courses include the four basic subjects of English, mathematics, science and social studies. Aptitude tests have been conducted during the past two years to assist students to determine which course they wish to take.

There is no compulsion for smaller schools to offer all courses, officials point out. The school board in each case is free to select one or more of the specialized courses, depending on the equipment and staff available; or to offer the general course only, with such technical options as can be carried. The new general course is based on a four-year program for average students, but may be cut to three years by good students. The other courses require three years to complete.

Attention will also be paid to the normal choice of students in different areas, officials state. Winnipeg, for example, will not offer the agricultural course; Brandon does not include a commercial course in its present plans, while Dauphin intends to offer all five courses.

An additional feature of the new curriculum is that it sets aside from 10 to 12 per cent of a student's school hours to be used, at the principal's discretion, for the needs of the school, e.g. glee club, debates, student councils, or remedial work in subjects in which the student is behind.

Objects of the change are to encourage students to complete their high school course, and to use technical subjects as a medium for general education.

Blight Causes Big Loss To B.C. Potatoes

VANCOUVER.—Late Blight of potatoes has become serious in some parts of the Lower Mainland and loss through rot has been severe in many cases, announces J. C. MacSwan, assistant plant pathologist, Vancouver.

Late Blight is a fungus disease which devastated the potato crop in Ireland in 1845, and resulted in widespread famine.

It spreads rapidly by wind and rain, and gets in its crop destroying work when the nights are cool, and the days warm and humid. Under such conditions a field may become completely blighted in a few days. Mr. MacSwan says: "Unless proper precautions are taken now to prevent spread of the disease from plant to plant in the field, and from plants and ground to the tubers, this loss of potatoes may be repeated in 'second early' and 'late' crops."

Rules for the conduct of debates in the English parliament are designed to curtail unnecessary argument as far as possible.

WORLD HAPPENINGS

BRIEFLY TOLD

Mrs. Agnes Marion Greenough, Edmonton author, soon will have some of her works appear in an anthology published in New York.

Trans-Canada air lines has fulfilled one of its strangest orders — shipment of nine black bear cubs to a circus in Britain.

Girls may soon run into stiff competition for glamorous hair-dos. A 14-year-old boy in Wilmington, Kent, Eng., won a prize for the most beautiful head of hair.

A \$100,000 building is to be erected in Regina by the Canadian National Institute for the Blind. Construction is expected to start next spring.

Dr. Edith Summersell, parliamentary secretary to the food ministry, told Commons that two years of bread rationing had saved 960,000 tons of flour.

When he left for the Boer War, James Cowling said he would be back in the year ended he stayed in South Africa as a soldier. Recently he arrived back in New Zealand, aged 72.

Siam's court astrologers have chosen next March 2 for the coronation of King Phumiphon Aduldet, now studying in Switzerland. The 20-year-old king succeeded to the throne on the mysterious death of his brother, King Ananda Mahidol, in 1946.

Completion of the Grimshaw-Great Slave Lake highway is expected this summer. It will enable heavily-loaded trucks to transport goods the year round to the south shore of Great Slave Lake from where they can be moved to Yellowknife, N.W.T., by water.

Untrapped Trapper

In an Arctic post the R.C.M.P. are anxious to get in touch with a local trapper.

The trapper's enthusiasm for an Indian girl led him to make gifts to her that were not his to give. He was apprehended, when complaints were brought to the R.C.M.P., and sentenced to cut the coming winter's supply of firewood for the post.

Through the Arctic summer the trapper worked off his sentence dutifully, was released and faded into the bush.

On the first cold night of late August a Moomie brought in an armful of the newly cut wood. He had some difficulty with it. A few more samples from various places in the pile confirmed his worst suspicions. The wood had all been cut two inches too long for the fire box.

Scientists To Study Natural Resources In West

EDMONTON—Two Montreal scientists arrived here on an eight-week journey through Alberta and southern British Columbia to determine how the natural resources of these provinces may fit into the future development of their company. They are Dr. D. F. Brown and George E. Gollop of the development department, Canadian Industries Limited.

According to a joint statement from the C-I-L men, they will look into the possibility of procuring basic raw materials for existing chemical industries and of business expansion within the area.

Opportunities for establishing new plants in Western Canada will be sought but a careful advance study is required before any decisions are reached. Many economic factors must be explored before a new industry is started in any locality, they said.

C-I-L already operates five plants in the West; a salt works in Nepean, Man., a paint plant in Regina, an agricultural chemicals plant in New Westminster, B.C., and explosives plants at James Island, B.C., and Palmer, Man.

HANDY CART—Many a tired back can be saved by building a little cart like this for water or milk cans, and for all the other odd jobs of the kind. Though the original was designed for use at a summer cottage it would be useful on any farm.

Solves Problem Of Housing In Canadian Northland

WINNIPEG—If a visitor to the Canadian Arctic should find himself shadowed by a house while trekking across the tundra it wouldn't be a trick of the Northern Lights.

"Floating" buildings are one of the latest of many devices used in the Arctic to combat the vagaries of the north.

A Montreal construction engineer, George Jacobsen, described the buildings in an interview here before proceeding to the 80th parallel, north of Cornwallis Island. There he will construct one in a chain of weather stations springing up across the Arctic as part of a meteorological program by the Canadian and American governments.

"Floating" houses, he said, is man's reply to permafrost—permanently frozen ground—which presents one of the greatest problems involved in northern construction work.

Permafrost varies from five to 200 feet in depth, with the top layer becoming muddy, and sloppy during the short Arctic summer.

"However, 'floating' houses are our answer to this problem. The buildings are designed on the same principle as a boat, they're not anchored to the ground but float with any movement of the earth's surface."

Similar in construction to Mosquito aircraft, the buildings have walls of light plywood, insulated both inside and outside with aluminum. Spun glass is used as an additional insulation factor.

An attractive pamphlet, 6 Sound Steps to Farm Building and Improvement has been prepared which gives particulars of the method of obtaining loans for the construction, alteration and repair of farm buildings under the Farm Improvement Loans Act. One of the sections is devoted to separate houses for farm help.

Farm Improvement Loans not in excess of \$3,000 may be obtained for building purposes up to 90 per cent of the estimated cost of the building with an interest charge of five per cent, simple interest, with repayment periods of from one to ten years.

The pamphlet giving particulars of the loans may be obtained from any branch of a chartered bank in Canada, or by writing to the Supervisor, Farm Improvement Loans Act, Ottawa.

Damp Forests Lessen Fire Hazard

VICTORIA—Forests dampened by rains are providing little fire hazard compared with former years. There have been 354 fewer bush fires this season than last, when the total was 973. The cost has been much less, with the 619 outbreaks since May 1 costing only \$33,393 to combat, as against \$48,790 spent in the corresponding period of last year.

For a like period in the fire season of 1946 there were 958 fires, costing \$60,348 to combat.

N.S. POTATO CROP GOOD

KENTVILLE, N.S.—In the Annapolis Valley apple prospects are none too bright, but early potato fields are expected to yield a 10-per-cent increase above last season, although planting was delayed.

Will Study Diseases At Lethbridge Lab

To aid the western farmer in controlling plant diseases as well as insects, the Dominion Department of Agriculture's Science Service is expanding its laboratory at Lethbridge, Alta. Research in plant pathology will now be added to the entomological work carried on there since the laboratory was established in 1913, announced Dr. K. W. Neatby, Director of Science Service.

To co-ordinate at this laboratory the investigations of the various units of Science Service and to increase liaison between Science Service and the Experimental Farms Service and western universities, the Department has appointed W. C. Broadfoot, Officer-in-Charge. Formerly at the Dominion Laboratory of Plant Pathology, Edmonton, Dr. Broadfoot has headed research in seed-borne diseases at Ottawa for the past two years.

In this laboratory expansion, plant pathology will be headed by Dr. M. W. Cornack, an authority on diseases of forage plants, formerly of the Dominion Laboratory of Plant Pathology, Edmonton. Dr. C. W. Farstad will continue to be in charge of research in field and forage crops insects; R. H. Painter in livestock insects.

From their studies of wheat stem sawfly and pale Western cutworm, government scientists have enabled grain growers to save millions of dollars. Under the successive guidance of E. H. Strickland, H. L. Seaman and G. F. Manson, results obtained at the Lethbridge laboratory have been widely adopted by western farmers.

Their reputation enhanced by their work at Lethbridge, Strickland is now professor of entomology, University of Alberta, Edmonton; Seaman is Chief, Field Crop Insect Investigations, Dominion Department of Agriculture, Ottawa; Manson is being transferred as Officer-in-Charge of the Dominion Entomological Laboratory, Chatham, Ont.

A RECORD

In Britain, the record for being farthest from a railway line — 18 miles — is held by the village of Lynton, Devonshire.

The word herbar is derived from the Latin herba, meaning beard.

THIS CURIOUS WORLD

NOTES AND COMMENTS

The following script was taken
from a Labor newspaper
published in Washington, D.C.
on Saturday, August 7, 1948.
McGrath Nails Propaganda
ARE WAGES CAUSE OF
HIGH PRICES?
HERE'S THE ANSWER

Led by the steel industry,
corporations have launched a
new barrage of propaganda
seeking to blame wages for re-
cent staggering price increases.
The National Association of
Manufacturers has been push-
ing that line in a big way.

What are the facts? Senator
J. Howard McGrath (Dem.,
R.I.), who is also chairman of
the Democratic National Com-
mittee, this week brought to-
gether some facts and figures
which completely explode that
propaganda.

He took the steel industry as
an example. Increases in the
price of steel since the end of
price controls two years ago
total more than the entire an-
nual payroll of the steel indus-
try during the past year," he
said.

McGrath gave the figures.
Since controls ended late in
1946, steel companies boosted

prices an aggregate of \$1,586,-
571,894. "But total wage pay-
ments of steel companies for
the year ending last May were
only \$1,551,907,336," he said.

The Rhode Island senator
then analyzed the recent "third
round" wage and price boosts
in steel. The average 13-cent
an hour pay hike will amount to
\$182,500,000 a year, he pointed
out.

How much of a price hike do
you think the steel corporations
imposed to offset that? A total
of \$688,953,781, or almost four
times the wage increase, Mc-
Grath declared.

That's computed by applying
the average \$9.34 a ton advance
to the total sales of finished
steel for 1947. If these sales go
higher in 1948, as they are like-
ly to, the price gouge will be
even greater.

Thus wages can't be blamed
for inflation, McGrath insisted.
"Exorbitant price increases and
soaring profits that have re-
duced the actual purchasing
power of factory workers de-
spite higher wages constitute
the major cause of today's in-
flation," he asserted.

NATIONAL HOLIDAYS ON MONDAY

Celebrate all national holi-
days on Mondays, urges The
Financial Post, which states:
Circulating among Canadian
trade associations is a resolu-
tion calling upon the Dominion
Government to have all nation-
al holidays celebrated on a Mon-
day. This is a sound suggestion
and it should be heeded.

The present hit or miss system
when Empire Day or Dominion
Day may come in the middle
of the week has really nothing

to commend it. There is little
historic significance about the
actual dates we use now.

Aside from the very consider-
able dislocation for industry
and business when a national
holiday falls in the middle of
the week, there is a most im-
portant human factor. Added to
the weekend, the extra day
gives a real break and a chance
to get away from routine, to
the average worker and his
family. Coming in the middle
of the week, it is merely a day
when one stays around home
rather than going to the office
or plant.

You Asked about the NATIONAL HOUSING ACT

A regular series of questions and
answers on house financing and
construction.

Q. I have decided to remodel
the house on my farm and I
want to know if it's possible to
get a National Housing Act loan
to finance the job?

A. No, the National Housing
Act does not provide for loans to
farmers for repairing, remodel-
ing or installing modern con-
veniences in existing houses be-
cause such financial assistance
is already provided in the Farm
Improvement Loans Act. This
Act was passed by Parliament
in 1944 and is administered by
the Department of Finance.
Under its provisions, the Do-
minion government guarantees
loans made by chartered banks
to farmers to make improve-
ments to a farm dwelling, such
as: Repairing and remodelling;
making additions, painting and
decorating; installing modern
conveniences including a farm
electric system, hot and cold
running water for a modern
kitchen and bathroom, refrig-
eration units, improved heating
equipment, a septic tank for
sewage disposal and for other
improvements. For full particu-
lars regarding Farm Improve-
ment Loan Act loans, you should
see your bank manager or write
to: Supervisor, Farm Improve-
ment Loans Act, Department of
Finance, Ottawa, Canada.

Q. I believe that footings for
a house financed under the Na-
tional Housing Act must con-
form to certain standards. Can
you tell me what these stand-
ards are?

A. All footings must be of con-
crete and must rest on solid
undisturbed soil. They must al-
so be of sufficient width and
thickness to spread the load
safely upon the soil. The thick-
ness of concrete footings must
be not less than the projection
of the footing beyond the face
of the wall above with a min-
imum thickness of six inches.
Footings, of course, should not
be placed on frozen soil, nor
placed at all during freezing
weather unless protected ade-
quately against frost action.
Footings are not required where
the bearing is solid rock.

Q. I am financing the con-
struction of an apartment house
of 20 units under the National
Housing Act. Will it be neces-
sary for me to give a chattel
mortgage on the property?

A. Yes, except in the province
of Quebec. With this one excep-
tion, a chattel mortgage must
be given (in addition to the
original mortgage) for any ren-
tal housing project containing
more than 10 family housing
units.

The chattel mortgage
covers all chattels, the removal
of which would impair the value
of the property which has been
accepted as security for the
loan. These may include such
items as gas and electric stoves
and refrigeration equipment.

Q. What is a 'completion loan'
under the National Housing
Act?

A. A completion loan is one
which is advanced on comple-
tion of the building. In other
words, no advances on the loan
are made during construction.

Q. What is the maximum
amount that can be borrowed
to build a house under the Na-
tional Housing Act?

A. The maximum loan is \$8,-
500, with the exception that
loans on ultimate four-room
bungalows will be limited to
\$5,000; on each four-room unit
of a duplex to \$4,800. Unfin-
ished rooms, such as those occur-
ing in 1½-storey dwellings will be
recognized.

Questions on house financing
and construction may be direct-
ed to this column and every ef-
fort will be made to answer
them at an early date. Editor.

On-To-Nelson Caravan Briefs

It was the hardest thing we ever had to do. Plans had been completed and the "trek" had already left Brandon and reached Regina when, owing to flood conditions, we were compelled to postpone "On-to-Nelson Caravan". We were "all wet" but we are now "dried out" and — as the need of our Southern Trans-Canada Highway is just as demanding as ever — our Caravan — temporarily postponed but never cancelled — is on again because this Southern Trans-Canada highway matter can never be settled until it is settled rightly.

After consultation with Chambers of Commerce and Boards of Trade on the Eastern end of the route, E. R. McFarland, president of the Lethbridge Chamber of Commerce, advised the Nelson committee that the date, which was most suitable to those whom he had been able to contact, was September 10th. This date was carefully studied from every angle, and was eventually accepted and arrangements were made for all committees to immediately swing into action again and plan — with the assistance of everyone along the Southern route — for the On-to-Nelson Caravan supporting the southern Trans-Canada all year short route highway.

During the planning of the Caravan in May, we received enthusiastic support from many of the Chambers and Boards along this route, and we are still in need of aid from everyone along this highway. Our campaign is the talk of Canada. Some, at first, thought it quite a joke, but now they realize

that we, on this Southern highway, are holding the Joker. We can assure you that this Caravan will be one of the greatest history making events of its kind ever staged in Western Canada — that is if everyone on — and adjacent to — our highway gets behind the movement and gives a good push.

Arrangements have been completed for the eastern Caravan to leave Brandon on September 6th, and proceed westerly as originally planned. Eastern points, we understand, have already heard from Mr. McFarland in this connection.

In order that there will be no misunderstanding whatsoever let us state — for all to know — the two reasons for the organizing of "The Southern Trans-Canada Highway Association," and the "On-to-Nelson" Caravan.

First — To convince the Federal and Provincial governments that for the successful economic future of Canada, the establishment of a Federal Highway Policy is an undeniable 'must'.

Second — To sell — on its merits — the Southern Trans-Canada Highway as "The all year short route".

Now, having frankly stated our intentions, we also wish to make it known that we intend to stay "on the job" until the task we have set ourselves is accomplished and successfully finished. In the opinion of some pessimists, it will require many years, but others are more optimistic. We belong to the optimistic group and intend to do everything in our power to have consideration given promptly and decisions made without evasion to our proposals. In good plain words "we mean business".

District Masons Held Meeting In Blairmore

The annual meeting of this Masonic district was held in Blairmore last Thurs., with Sam McDowell, district deputy, in charge. Over 100 members of lodges in Coleman, Blairmore, Hillcrest, Cowley, Fincher Creek and Macleod were in attendance. Grand lodge officers included Dr. William A. Henry, of Lacombe, Grand Master, and George Moore, grand secretary, from Calgary.

Afternoon and evening sessions were held in the United church auditorium, with the ladies of the church catering for the banquet at 6:30.

Ernie Fisher, of Bellevue, was elected as incoming district deputy, and Hillcrest chosen as the place for the next meeting.

Thinks Bank Ruling Would Apply Here

Robert Rae, president of the Canadian Bankers Association, said on August 12 he believed the principle which moved the Australian high court yesterday to rule unconstitutional the Australian Labor government's bill to nationalize banks also would apply in Canada.

Mr. Rae said: "While the constitutional relationship in regard to banking in Australia is not on all fours with Canada, no doubt the essential principle on which the judgment was based is common to both countries. This is that government ownership of commercial banking jeopardizes its present impartiality and potentially interferes with freedom of commerce."

"That principle applies equally to Canada. Once bank credit accommodation is made subject to steering or direction based on political consideration of a party in power, or even expected to that possibility, freedom of commerce or of any kind of trade is beyond all effective guarantee. Availability of bank credits does not now depend even to the slightest degree on political creed or doctrine. It never should."

"In Australia, too, there was a manifest fear of political intrusions into the money affairs of the private individual. This fear became so potent that the Socialist government actually sought to allay it by writing a provision into the proposed legislation. My information is that it quite signally failed to reassure the hard-headed depositors and borrowers of Australia."

C. P. A. Now Spans The Pacific Ocean

Canadian Pacific Airlines now have regular passenger and cargo flights on two trans-Pacific routes, adding a total of 14,420 route miles to Canada's International Air Services.

"The Family Clothier" - Main Street, Coleman

Letter To The Editor

Blairmore, Alta.
August 14, 1948

Editor,
The Journal,
Coleman, Alta.

In your last issue a front page item stated that Coleman Cubs by their best of five victory over the Hillcrest team had won the Crows Nest Pass championship.

This statement is incorrect as the series just completed between Coleman and Hillcrest was to determine a representative of the Crow league for the Southern Alberta Baseball Association playdowns.

The play-off series for the J. K. Ringland Cup which is emblematic of the CNP baseball championship is being played off now. Coleman Cubs by virtue of having finished at the top of the league standing have received a bye into the final of this series.

Trusting you will make this correction in the Journal.

Yours truly,

Crows Nest Pass Baseball
League,

C. A. Freeman, President
A. Tiberg, Sec.-Treasurer

EATON'S

EVERYBODY'S BUSINESS

by
Don Graham

When we speak of men as being "successful" it is generally assumed that we are referring to large incomes and prominent positions. But, while these are signs of success, they are by no means its only yardsticks.

Actually, I believe any man is successful who uses his energies and talents to the best of his ability. His earnings may be modest. But if he tries to improve himself and his environment, if he is dependable, agreeable and helpful, if he cares for his family and their needs, he is truly important.

Show me a man with these qualities and I will be proud to claim his acquaintance.

The best objective, surely, is to strive for success in the "broader sense of helping to make this a better world!"

The world is better because of life insurance which has achieved success through meeting people's need for financial security. And it contributes to the betterment of the whole nation through investments in public works and vital industries which benefit every citizen.

WEDDINGS

BRIDE CHOOSES PARENTS' ANNIVERSARY FOR WEDDING

On the twenty-second anniversary of her parents' wedding, Saturday, August 7, Ellen Ruth, elder daughter of Mr. and Mrs. F. H. McKay of Blairmore, became the bride of Chester L. Stanton, second son of Mr. and Mrs. M. R. Stanton of Didsbury.

The wedding took place in St. Luke's Anglican church, Blairmore, before the Altar decorated with yellow and white daisies and white tapers. The Rev. A. S. Dewdney officiated.

The bride was given in marriage by her father, Miss Joyce Millet was bridesmaid and Mr. Gordon Muspratt attended the groom. Guests were ushered by Mr. R. Vejprava. Mrs. F. Millet, god-mother of the bride, played the wedding music and accompanied her daughter Barbara who sang "All Joy Be Thine", during the signing of the register.

For the occasion the bride wore an ivory satin floor length gown featuring a peplum, sweetheart neckline and lily point sleeves. Her veil was held in place by a beaded coronet and she carried a bouquet of tall-man roses. Her only ornament was a heirloom gold cross.

Following the wedding ceremony, a reception and dance was held in the ballroom of the Turtle Mountain Playgrounds where guests were received by the parents of the bride and groom. Mrs. Norman Smith of Vancouver and Mrs. Ross McKay of Medicine Hat, aunts of the bride, presided at the tea and coffee urns. The toast to the bride was proposed by Mr. A. Vejprava.

The happy couple left by car for Waterton Lakes and Banff. For travelling the bride wore a sage green gabardine suit with white accessories. On their return Mr. and Mrs. Stanton will reside in Blairmore.

Out-of-town guests included Mr. and Mrs. M. R. Stanton, Didsbury; Mrs. A. Woodbridge & Diane, Toronto; Mrs. G. Pritchard, Midnapore; Mrs. N. Smith and Norma Lynne, Vancouver; Mr. and Mrs. C.R. McKay and Beth; Mrs. W. Roxburgh and Bill, Medicine Hat; Mrs. G. Welch and Miss Betty Welch, Macleod; Miss Esther Oliver and Miss Mazel Millet, Calgary.

Mrs. J. W. Derbyshire of Coleman is the grandmother of the bride.

TO ALL CANADIANS

Handling U.S. Currency In The Course of Business

Many goods and services securable only in the United States are essential to the maintenance of Canadian industry and the high level of employment.

All the U.S. dollars spent in Canada by U.S. tourists and business visitors are needed for these essential purchases.

To ensure that these tourist dollars are made available for this purposes, the Foreign Exchange Control regulations require that merchants, hotel keepers, service stations and all others must turn in whatever U.S. currency they receive to their banks.

F.E.C.B. Regulations You Should Know

1. You may accept U.S. currency from anyone who tenders it, either in payment for purchases or for exchange into Canadian currency at par.
2. You may make change in U.S. currency for a non-resident tourist who has tendered U.S. currency in payment of purchases.
3. You must NOT pay out U.S. currency to anyone in exchange for Canadian currency.
4. You must not pay out U.S. currency in change to a Canadian resident, even though the latter has tendered U.S. currency in payment of a purchase.

Modern Electric, First-Class Hardware And Furniture Store; Large Stock of Electrical Goods

The Modern Electric is very centrally located in Coleman and under the management of the proprietor, Mr. R. A. Montalbeti, this firm is well thought of by the residents of the community.

They carry a most representative line of household electrical appliances, including radios, refrigerators, washing machines, etc. They cater to their customers with exceptional courtesy and accommodations and are well known for their servicing of all appliances.

Mr. Montalbeti established this business in 1934, and was the first of its kind in Coleman.

He is very familiar with all phases of the electrical appliance business, having been associated with it for over twenty years.

In addition to the above, this firm carries a large selection of furniture, and here you can furnish your home at real savings. Before you furnish your home let them show you their home outfits. Furniture of all kinds needed to furnish the modern home can be secured here at reasonable prices.

With factors such as these, it is only right that the Modern Electric occupy a prominent place among Coleman's better business houses.

SILVER WEDDING ANNIVERSARY

A surprise party, in honor of Mr. and Mrs. Wm. Michalsky on Saturday, July 31, to celebrate their twenty-fifth year of happily married life. The party was given in their home at Sentinel by members of the family.

The honored couple were presented with a beautiful 4-piece silver service on behalf of the family members. A lovely 3-tiered wedding cake centred the table.

Out-of-town guests included Mr. and Mrs. Albert Kropinak, of Seattle and Mr. and Mrs. Bruno Michalsky, of Lundbreck.

INCREASED BENEFITS FROM UNEMPLOYMENT INSURANCE EFFECTIVE IN OCTOBER

Hon. Humphrey Mitchell, minister of labour, announced today that the Act passed at the last session of Parliament, to amend the Unemployment Insurance Act, 1940, has been authorized by Order-in-Council to become effective on October 4, 1948.

In making the announcement, Mr. Mitchell stated that employers would be well advised not to overstock with the present denominations of stamps due to the fact that the new denominations will be issued in September.

Principal changes of interest to all insurable employees are as follows:

1. Claimants with dependents will receive higher benefits.

At present the benefit rate is 40 times the average daily contribution for the previous two years. The new rate is 45 times (less 10c) the employee's average daily contribution for the previous 180 insured days.

(Example: Daily contribution 6c—old benefit rate—\$2.40 (\$14.40 a week). New benefit rate—\$2.60 (\$15.60 a week).

A dependent now includes any person connected to the claimant by blood relationship, marriage or adoption if he is wholly or mainly supported by claimant in the claimant's own home.

2. A new class of insurable employees will become effective.

Those earning \$34.00 or more a week will pay 7c per day (42c per week). This will mean higher benefits for this class as shown below. When an insured person has paid contributions in this new class for 180 days the maximum benefit payable will be—

Single rate — \$2.40 per day (\$14.40 per week).

Dependency rate—\$3.05 per day (\$18.30 per week).

3. The Act recognizes services in the Armed Forces during World War II as entitling a veteran to protection under the Act to the same extent as if he had been in insurable employment during his armed service. In this connection the Government has been reimbursing the Unemployment Insurance Fund for all benefits paid out to former members of the Armed Forces. A veteran could obtain credit under the Act for his period in the Armed Service by working 15 weeks in insurable employment. The recent amendment provides that the veteran must complete the 15 weeks insurable employment on or before September 30, 1952, in order to qualify. Time may be extended to a veteran who because of illness or injuries sustained in war service was unable to qualify before 1952.

The Minister further stated that all veterans should notify local offices of the Unemployment Insurance Commission as soon as they met the requirements of the Act, regardless of whether they were unemployed

and seeking benefits. This would not only help the Commission but would make it easier later on for the veteran to obtain benefits should he become unemployed.

ONE-COAT PAINT

A highly opaque paint has been developed which, it is claimed, can be used for repainting houses white with one coat, without fear of original

showing through, states The Financial Post.

The Post also reports development of a finish said to provide a lustrous waterproof coating of exceptional durability, resistant to atmospheric conditions. It is designed for painting, preserving, protecting and decorating asbestos siding and shingles. No priming is necessary. Primer, paint and sealer are embodied in one product ready-mixed for immediate use.

World News In Pictures

ONE OLYMPIC SWEETHEART—Donna Gilmore may not be the fastest girl in the 100 or 200 metres at the Olympics, but we'll wager she is the "juriest!" This Vancouver miss has been the target for autograph hunters ever since the Canadians landed at Southampton and has been prominent among those mentioned to be queen of the games.

HITLER'S CAR TO AID WAR ORPHANS—Hitler's armored Mercedes-Benz automobile, now owned by Christopher Janus of Chicago, Ill., is shown being hoisted into New York's R.C.A. building in Radio City. The auto will be placed on exhibition at Radio City's Museum of Science and Industry. Proceeds of the exhibition will be used to aid and educate war orphans at Athens College, a U.S. college in Greece devastated by Hitler's Nazi legions.

EXPANDING 65 ACRES INTO 1,025-ACRE FARM—Owner of 1,025 acres at Cedar Springs, Ont., Virgil McGuigan is one of two farmers who are directors of the Canadian Chamber of Commerce. With him is his son, David. Raspberries are but one of many crops in his "chain" method of farming. Effie Israel shows two cartons of pint boxes she has just brought in for checking.

ALWAYS ROOM FOR ONE MORE—Running a tourist camp all by himself near Lake Couchiching, Ont., is a big job for Frank Cox, 28, veteran who put his gratuities into the enterprise, but he criticizes reports of "crowded" resorts for hurting his business. Ironing, washing and bed making are all in the day's work for Frank. He built cabins, too, and then landscaped the area around them.

LATEST "NEW LOOK"—Newest thing in milady's "new look" is spat shoes. The one shown is of black patent leather with pearl gray suede spat buttoned with six pearl buttons. It made its appearance in New York.

STARDUST AND LINDA VISIT MADRID—Tyrone Power and Linda Christian, en route to Italy to make a motion picture, took some time off in Spain and visited the countryside before proceeding toward Rome. Notice the snappy sideburns Tyrone is wearing.

NABBED FOR RUSSIANS—Prince August Wilhelm, fourth son of Germany's late ex-Kaiser, has been arrested at Crailsheim, Germany. In the U.S. zone, on a war-crimes charge, it has been reported. He is wanted by Russian authorities and it is expected they will request his extradition to the Soviet zone.

PET CAUSES EVICTION—Because of their pet dog, eviction faces Betty Widdowson, who holds Fluffy, and her brother, Billy, seen with his pet dog, Patsy. They are the children of Mr. and Mrs. Archibald Widdowson, who live in barracks, Toronto. Eviction order was signed. Even if the dog is disposed of, the family will be evicted if the cat remains, civic officials said, since the ban will be enforced on all persons keeping pets like cats.

ONTARIO FRUIT GROWERS TO FORM MARKETING SYSTEM—Ontario fruit and vegetable growers, dissatisfied with present marketing system and gap between producers and retail prices, are reported about to form a marketing organization. Berry pickers here are Donna and Gerry Cornell and Joan McDonald.

QUALIFY FOR JUNIOR FINALS—Competing in the Royal Canadian Henley at Port Dalhousie, Ont., this eight of Toronto Argos defeated Ottawa and Detroit to qualify for the junior finals in the Canadian championship rowing races.

"MISS OXFORD COUNTY"—Nancy Fleischer, 17, of Ingersoll, Ont., was chosen "Miss Oxford County for 1948" at the annual Thamesford Y's Men's garden party which drew a crowd of 5,000 persons. The high school student expects to compete in Windsor for the Miss Western Ontario title.

SHEEPSKIN FOR KINDERGARTEN GRADS—It's a big day in their little lives, as Kathleen Ann Lally, five, receives her "sheepskin" from Very Rev. Thomas M. O'Connor, pastor of St. Catharine of Siena church as other kindergarten "graduates" await their turn in the Paris auditorium in New York.

Weekly Newspaper Convention Delegates —

Largest number of delegates in several years attended the 32nd annual convention of the Canadian Weekly Newspaper Association, Saskatchewan Division, at Regina. T. E. Seriver of Wolsley, vice-president of the Association, presided in the absence of President Dr. S. J. Dorman, of Alameda, who was regrettably missed for the first time in nearly 25 years because of illness. Many important and vital subjects were discussed, with the prime

aim of the Association to elevate the standard of newspaper publishing in an effort to increase readership value of the papers. At the last business session Mr. T. E. Seriver of the Wolsley News was named President, Gerald Humphrey of the Nokomis Times, the new vice-president, with Walter Ashfield of the Grenfell Sun as secretary-manager. Other members of the executive are A. R. Beck, Battleford Press; George Lancaster, Melville Journal, and J. Pinckney, Rosemount Eagle.

OUR COMPLETE SHORT STORY—

THOSE WE LOVE BEST

By BASCOM H. BIGGERS III

IT WASN'T the first argument Laura and James had. During five years of marriage there had been many. But it was the worst one because it concerned something close to both of them. It was about the house.

"I can get a good price for it," said James.

"I don't care how much you can get for it," said Laura. "This is our home and I don't want to give it up."

"Look, Laura, I love the place too," he said, "but with the money we make on it we can have one twice as nice and money to boot."

"No, I don't care what you say, James. No, I don't want to sell. My friends are here and everything connected with the first years of our marriage. I won't ever agree to sell."

He tried to reason with her, but before they knew it they were fussing violently with one another and saying all manner of ugly things.

"You can have the house and everything that goes with it," shouted James in a fit of temper. "I'm leaving and I'm not coming back."

He went to their room, threw some things into a suitcase and stormed out of the house. He started the car with a roar and shot out of the drive.

At Carlson, fifty miles away, he got himself a room in a hotel. He had cooled off some, but he was still determined that he would not go back. She was being unreasonable about the whole business, and he would just teach her a lesson. It wasn't every day that a man got a chance to make a good business deal, but Laura was too sentimental to realize it.

Besides he was getting a little tired of being married. It was the same old thing day in and day out. Laura was unreasonable and could never see his way. A man got tired of being tied down.

That night about twelve o'clock he was awakened by a pounding on his door. For several minutes he couldn't remember where he was. He got up sleepily and opened the door. His next door neighbor, Fred, rushed in, wide-eyed and dishevelled.

"Good heavens, James, I've looked all over town for you. Laura's in the hospital. Her appendix burst and we had to rush her to the hospital."

"Oh no," said James sinking down on the bed, his face white. "Is she—will she—"

"I don't know. The doctor says she has a fifty-fifty chance. She's been calling for you. They were taking her into the operating room when I left. Come on, man, snap out of it and get your clothes on. You've a fifty-mile drive ahead of you."

"Oh, my poor darling," said James. "If anything happens to her I'll never forgive myself."

James dressed in a trance. He scarcely remembered Fred leading him out of the hotel and to the car. All he could think of was Laura, dear, sweet little Laura close to death. And he had quarrelled with her, run off and left her. He was missing when she needed him most.

He and Fred did not talk all the way back. Fred drove rapidly and James sat staring at the highway that dipped ahead into darkness, remembering all the happiness Laura had brought him.

He saw her excited face the day he gave her the engagement ring that was small but wonderful to her. He saw her on their wedding day, tears bright in her eyes. He remembered the day the doctor told them they could have no children and how it was Laura who held up best. She smiled at him and said, "Never mind, darling. We can adopt some, and we'll always have each other."

When he'd lost his job Laura hadn't fussed or cried or gotten upset. She'd hugged him and said, "Don't worry, dear. It's only for a while. You'll get another one even better. We'll get along somehow."

And they did, all through Laura's efforts. In every dark moment Laura had been there to brighten the way and encourage him. If he should lose her now—Tears dimmed his vision.

And then there were the million and one little things that she was always doing, things that he didn't even really notice. Having his fishing equipment ready when he even suggested going on a trip; tending him when he had the slightest cold; never forgetting his birthday; smiling and making it all right when he forgot. This was the Laura he knew and loved, the Laura he could not live without. And because of one foolish argument he had thought of leaving her. What a fool he was.

Even about the house she was right. They both loved the place. They had poured their hearts into it, working to make it a home. And what was a little profit in comparison to things you cherished and loved. How stupid he had been.

"We're here, Fred said, and James snapped back to the present. In the corridor of the hospital they met the doctor.

"Doctor—is Laura—?"

"She's going to be all right," he said patting James' shoulder.

"Thank God!" said James. "May I see her?"

"She's sleeping now, but you may look in if you'll be very quiet."

Standing in the doorway looking down at the sleeping figure of Laura, James realized how small and fragile she was. And yet she was such a pillar of strength to him. How he loved her.

Why, oh, why, he wondered, must we almost lose those we love best before we realize how much they mean to us. Help me to remember every day that tomorrow I may not have her, and then I may love her a fraction of what she deserves.

She opened her eyes then, saw him and smiled, and he knew she understood and that everything was all right.

PULP MILL AN ALASKAN PROSPECT

Establishment of a pulp and paper industry in Alaska, after 30 years' efforts, appeared near realization with the acceptance by the U.S. Forest Service of the bid of the Ketchikan Pulp & Paper Co.

This company has agreed to buy 1.5 billion cu. ft. of pulp timber near Ketchikan, Acting Chief Forester C. M. Granger has announced. This will result in the establishment of a \$20 million-\$30 million pulp mill at Ward's Cove, six miles north of Ketchikan.

Court Admits Will Eched On Tractor

SASKATOON — Surrogate Court of Saskatchewan has admitted to probate a will scratched on a tractor fender.

In June when Cecil Harris of McCre, Sask., 75 miles south-west of here, was buried beneath a tractor for nine hours, he scratched his will on the fender with a jackknife.

It read: "In case I die in this mess, I leave all to the wife." He signed it.

Harris died two days later.

FROM FRENCH WORD

The word grenade was taken from the French word for pomegranate, because of a resemblance in shape to the fruit.

Western Briefs

EDMONTON. — Relief from summer's heat—but next year—has been promised for Edmonton children. Mayor Harry Ainlay announced the city's swimming pools will be doubled. Three more, costing altogether \$200,000, are scheduled.

INDIAN HEAD, Sask. — Indian Head now boasts a hard-surfaced, black-topped main street, at a cost of \$14,000. The town had the full length of Grand avenue, 12 blocks in all, built up, gravelled and tarred to a depth of three inches. The provincial government contributed the machinery and the town paid the cost of construction.

ROLAND, Man. — An annual sports day here featured a calf show. However, the event—sponsored by Roland Agricultural Society—had athletes too. Another feature was a four-team baseball tournament.

DRUMHELLER, Alta. — A small cube of Alberta coal, forming the centre-piece of an advertising folder outlining some of the province's industrial potential, has been sent to 12,000 industrialists throughout the world. Each in a tiny coil, said the samples used up 200 pounds of top-quality coal.

SHAUNAVON — To please the children who missed the county fair when it was rained out, the Shawnee club and the Branston Carnival company entertained 400 children at a penny day. Over 1,000 bags of popcorn, 1,000 glasses of lemonade, 1,800 ice cream cones, etc., each went for a cent.

WINNIPEG. — The appointment of Olive B. Davidson as secretary of the Canadian wheat board was recently announced by the board in Winnipeg. Davidson has been associated with the board in various capacities since back to the present. He has been the executive assistant to the board.

FOAM LAKE, Sask. — The building boom continues in Foam Lake. Eight new homes are being built and six are being moved from farms in the district. Forget street in the Smith subdivision acquired seven homes in two weeks.

South Alberta Has Bumper Hay Crop

CALGARY. — Operations have been in full swing in some sections of the south bringing what promises to be the biggest hay crop in recent years, due to late spring, plenty of moisture and warm weather. Some districts report more hay than can be cut and stacked with available labor and equipment.

Last winter the province had to import thousands of tons of hay from Manitoba, and much of the reserve stock was eaten up during the severe cold spell and late spring.

ONE INCH FROM DISASTER

LONDON — A. Nicholson, of Maidstone, was cutting logs on a circular saw when the blade struck something hard. The hard object turned out to be a "live" can shell. The saw had missed the detonator cap of the shell by one inch.

PIMPLES AND BLACKHEADS

Quickly helps to clear up these blemishes leaving skin soft and smooth. Proven over 30 years.

Dr. Chase's Ointment

PEGGY

FOR DEAR, IF YOU GIVE ME AN INCREASE IN MY ALLOWANCE WILL I HAVE TO PAY FOR NEW FORMAL? OR CAN I HAVE \$5 MORE?

MEAN NO?

FOR GOODNESS SAKE, FOR DO YOU MEAN THAT I HAVE TO BUY MY OWN CLOTHES JUST BECAUSE YOU MAY GIVE ME A LITTLE \$5 RAISE?

I DON'T SAY THAT! I SAY—WHAT DID I SAY?

WON'T YOU BE PROUD OF ME IN MY NEW FORMAL? BUT IT TOO BAD WE HAVE TO GO ON THE BUS?

CAN WE USE YOUR CAR? IS THERE GAS ENOUGH IN IT?

YES—NO—HUH?

TO THINK HOW I USED TO LOOK INTO HER CRIB FEELING BAD BECAUSE ONE DAY SHE'D GROW UP AND HAVE TO FACE THE WORLD ALONE!

FROM FRENCH WORD

The word grenade was taken from the French word for pomegranate, because of a resemblance in shape to the fruit.

Some Years Before Trans-Canada Road

OTTAWA. — Resources Minister MacKinnon said it would be some years before a trans-Canada highway is constructed.

He commented on a statement by Trade Minister Howe that the government intended calling a Dominion-provincial conference on the project some time this fall.

Mr. MacKinnon said some of the difficulties were:

1. Shortage of labor.
2. Tremendous cost of such a highway.
3. Problem of where the route should run.

The resources minister said some months ago he advocated the highway be built to attract greater tourist trade from the United States. He envisioned the road as not necessarily following a line close to the border, but having feeder roads leading to border points.

He said he favored the selection of an independent commission to study problems involved in the road construction.

"The project will cost millions of dollars," said the minister "and you may be sure it will be some years before it is completed."

New Uranium Find Reported In Northern Manitoba

FLIN FLON. — The second uranium find within a month in Northern Manitoba was reported here.

Walter Johnson, of Herb Lake, said core samples taken from Anderson in the Flin Flon Lake area had given assay results of one per cent uranium in addition to encouraging copper and gold showings. The showings stretched across a width of 178 feet.

Gold values were reported as 70 cents to one seven-foot section, assaying at \$3.85 a ton.

Another possible uranium find reported from near the junction of the Fox and St. Pert rivers in remote northeastern Manitoba.

Trapper Charles Dunn, the only white man travelling the area, placed a lump of black metal in a cigar box with unexposed film—the rock photographed in pitch darkness, indicating it contained radioactivity, and possibly uranium. Dunn hopes to use a geiger counter over the area for more comprehensive tests.

This area also has showings of tantalum, a metal imported from South America for manufacture of surgical instruments.

SHIP 20,000 CARS FROM BRITAIN IN JUNE

LONDON. — British manufacturers shipped 20,000 motor vehicles overseas in June, the Society of Motor Manufacturers and Traders said.

CONSTRUCTION NOTES

ESTEVAN, Sask. — \$31,760 contract has been let for extension of the Estevan collegiate.

PINCHER CREEK, Alta. — Rate-payers have approved a \$100,000 by-law for a high school.

CARMAN, Man. — General contract for the \$175,000 memorial hospital of 44 beds has been awarded to Dring Bros. of Bidsvein.

FLIN FLON, Man. — Construction of a \$100,000 dominion public building is being planned.

SHELLEBROOK, Sask. — A \$45,000 contract has been let for construction of an 8-room school at Leoville.

EDMONTON. — Three new bridges are planned by the department of public works, at Goodwin crossing (near Grande Prairie), at Empress and Cluny, for a total cost of \$500,000. Asimiloba Engineering Co. Ltd., Calgary, has been awarded a \$230,999 contract for grading 30 miles between Gleichen and Bassano. Fred Mannix & Co. Ltd. has been awarded a contract for road grading between Lettbridge and Turin for \$187,853.

Discovered At Eastend, Sask.

EASTEND, Sask. — Three paleontologists from the Royal Ontario Museum, Toronto, are camped beside the Little Frenchman River, in this district in the extreme southwest corner of the province, searching for pioneers.

To date, the party has recovered skulls and jawbones of Titanotheres—an extinct animal related to the horse and rhinoceros. The relics are reportedly 40,000 years old and similar bones are said to have been found in North Dakota and Europe.

This Cypress Hills district is furrowed with ancient water courses and the present party holds little hope of finding complete skeletons. They say those being found were washed to their present position by ancient streams and rivers.

AYRSHIRE BULL BRINGS HIGH PRICE

HOWICK, Que. — A 10-month-old Ayrshire bull brought to Canada from Scotland last spring sold for \$18,200 at a sale here. The bull, Carnell Sweepstake, was bought for the farm of Fowler McCormick at Barrington, Ill. In all 46 heads were sold for \$34,870, an average of \$758 each and a record for Canadian Ayrshire sales.

MORE HASTE, LESS SPEED

SWAFFHAM, Norfolk, England. — Mrs. G. Salter here received a letter six years after it was posted. It stated that it was "written in haste."
